SHOW BEAUTY PERFORMANCE Small Dog is a precisely balanced nutritional formula which helps support the beauty of the coat. An adapted level of zinc and linoleic acid contributes to coat glossiness and dandruff reduction. Enriched with borage oil. As a healthy skin is an important contributor to coat quality, the formula is enriched with Omega 3 fatty acids (EPA and DHA) and an exclusive complex of nutrients helps maintain health by supporting the skin's "barrier" role.

DIGESTIVE PERFORMANCE

An exclusive combination of nutrients including sources of very high quality protein (L.I.P.) and prebiotics (FOS) helps support a balanced intestinal flora and optimal stool quality.

DENTAL HEALTH

Helps reduce new tartar build-up through chewing and thanks to agents which chelate the calcium in saliva.

HIGH PALATABILITY

Satisfies the fussy appetite of small breed dogs thanks to its formulation and carefully selected flavourings.

INGREDIENTS

COMPOSITION: dehydrated poultry protein, animal fats, rice, maize, vegetable protein isolate*, wheat, wheat flour, maize gluten, hydrolysed animal proteins, soya oil, beet pulp, vegetable fibres, minerals, yeasts and parts thereof, fish oil, fructo-oligo-saccharides, borage oil.

*L.I.P.: protein selected for its very high digestibility.

ADDITIVES (per kg): Nutritional additives: Vitamin A: 30000 IU, Vitamin D3: 800 IU, E1 (Iron): 53 mg, E2 (Iodine): 5,3 mg, E4 (Copper): 15 mg, E5 (Manganese): 69 mg, E6 (Zinc): 206 mg, E8 (Selenium): 0,07 mg - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants

KEY SUCCESS FACTORS FOR PERFORMANCE AT SHOWS

THE ESSENTIAL LEVELS

MATCH WITH BREED STANDARDS

GENETIC SELECTION

FULFILLING POTENTIAL

COAT BEAUTY (& SKIN HEALTH)

GROOMING & INFECTIOUS FACTORS

Appropriate brush and shampoo

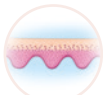

Antiparasitic treatment

WEATHER

APPROPRIATE NUTRITION

Exclusive Complex:
Helps reinforce the skin barrier by limiting water loss

EPA/DHA (omega 3)
Anti-inflammatory
GLA (omega 6 from borage oil) Coat condition

Protein: Skin cell renewal and healthy hair growth

BEHAVIOUR & WELL BEING

ADAPTATION TO CHALLENGING ENVIRONMENT

Socialisation:
From an early age

Training in different environments:
Unusual stimulations:
visual, sound, touch...

DIGESTION

CHANGING ENVIRONMENT

APPROPRIATE NUTRITION

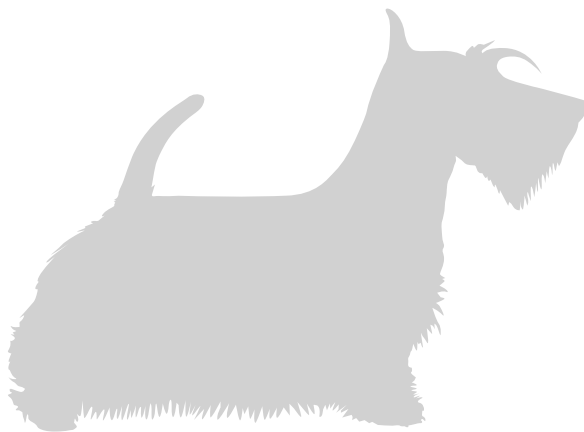

LIP: Highly digestible protein

FOS: To help support a balanced intestinal flora and optimal stool quality

82% of breeders think that their dog's coat looks better with this new food*
